Mr. Octave Chanute, Eng. Chicago, Ill.

Dear Sir: For some years I have

Variety Cycle
1127 West Third Street
DAYTON, OHIO.

Dear Sir:
For some years I have been afflicted with
increased in severity and I feel that it will soon cost
me an increased amount of money if not my life. I have
been trying to arrange my affairs in such a way that I can
devote my entire time for a few months to experiment
with your ideas of the subject are similar to
my own experience. The flight of the bird is
not rather than a conventional knowledge & skill.
It is a common knowledge & skill.
But not without knowledge & skill.
I am, Sir,
Yours truly,
J. H. [Signature]

SYSTEMS ENGINEERING

start to
FINISH,
systems
engineering

Before you even pick up your pencil, call us. We will support your software development organization so you get it right the first time. Bringing the *Software Technology Support Center* in at the beginning of your project, adds a system engineering perspective to your software project. Our support continues beyond design and carries through the entire product life cycle, including maintenance.

STSC services benefit program managers in any phase of software systems development. We provide the systems engineering focus that supports the "big picture"

view for software systems.

Our services include a requirements engineering workshop, a systems engineering workshop, testing, quality reviews, facilitating between client and customer, and providing language support to learn new languages. We also provide workshops and consulting on Risk Management and Configuration Management.

Whether your organization is big or small, just starting a project, or embattled in difficulties, we can help. Just call us. From prior planning to salvaging solutions, we help you ensure quality and improve your process.
